GJ-PAN-CF27

Date

9/25/02

Form #

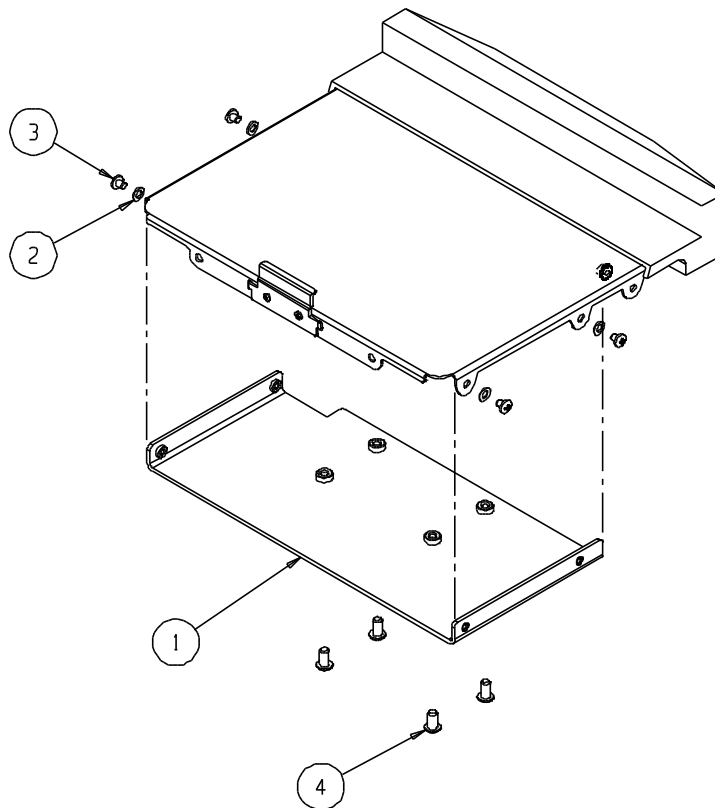

INST53

Assembly of the GJ-PAN-CF27 interface to the Panasonic CF-WEB273 docking station.

1. Place the interface plate, item 1, inside of the docking station and secure with four M5 internal tooth lockwashers and screws, items 2 and 3.

Assembly of the dock and interface to Gamber Johnson motion devices.

1. The interface is supplied with a single 2.00 x 4.09 hole pattern and four .25-20 x .50 socket button head cap screws, item 4, which allows the unit to be mounted to various tilt or swivel devices manufactured by Gamber Johnson.

If you need assistance or have question, call Gamber-Johnson at 1-800-456-6868.
